

JESUS BELIEVES IN EVOLUTION

APES
+ ALIENS
= HUMANS

The universe is 13.7 billion years old. Most of that time, the requirements necessary for life have been met. Therefore, extraterrestrials probably evolved before us. Fossil evidence indicates that evolution often happened too fast for Darwin's theory of natural selection to be the only force driving evolution. Some kind of extraterrestrial force also played a role in evolution. Ancient Christian texts say that "angels" had offspring with earth's creatures, and that their offspring became new species. Modern sources report that aliens manipulate our gene pool. Bible scholars believe that Genesis 1's creation story is a fraud written by heretic priests. Recently discovered ancient Christian texts disrespect Genesis 1, and tell a different creation story which is more compatible with the Big Bang. They also say there are many "gods." The Bible says Jesus "could not do" something (Mark 6:5). So there is no Almighty God. Rather, Jesus is a good alien-god who needs our help to fight the bad alien-gods. See the website for documented proof of these facts.
